ADMISSIONS AND REQUIREMENTS

Applicants must either possess a Bachelor’s degree in Computer Science, Computer Engineering or Telecommunication Engineering, or have an equivalent qualification degree as specified in the call for applications. Students who have a different Bachelor’s degree may be accepted provided they have the number of credits in the fundamental disciplines of the programme specified in the admission procedure. A good knowledge of English (B1 Level in the European Framework for Languages) is also required.

Successful applicants must follow the University of Pisa’s standard enrolment procedure.

DEADLINES AND FEES

Application deadlines are April 20th, 11am GMT (non-EU students) and May 4th, 11am GMT and July 25th (first and second deadline for EU students and non-EU students who officially reside in Italy). Fees depend on the student’s country of origin and can vary from € 407 to € 2,354. Information about fee waivers, extraordinary contributions and scholarships can be found at www.unipi.it/tuition-fees.

This 2-year Master’s Programme in Computer Science and Networking is taught jointly by the University of Pisa’s Department of Computer Science (along with professors from the Department of Information Engineering), and the Scuola Superiore Sant’Anna’s Institute of Communication, Information and Perception Technologies (TeCIP). This prestigious and institutional partnership was established for the first time in order to teach this specific degree programme.
