

European Summer School

Sensory Neuroscience

Online: July 24-28

Pisa: July 31-August 5

Online program: dedicated MS Teams “ESSSN” channel

Date	time*	Speaker: Name Surname (institution)	Title	Type of activity
Monday, July 24	12:00- 14:00	Paola Binda (Università di Pisa)	Basic principles of active sensation	Lecture
	14:00- 16:00	Elisa Filevich (University of Tübingen)	Studying subjective experience	Lecture
Tuesday, July 25	10:00- 12:00	Tobias Heed (University of Salzburg)	Somatosensory perception: constructing the body to interact with the world	Lecture
	14:00- 16:00	M. Concetta Morrone (Università di Pisa)	Stability of vision during saccades	Lecture
Wednesday, July 26	10:00- 12:00	Tommaso Pizzorusso (Scuola Normale Superiore di Pisa)	Plasticity and critical periods	Lecture
	14:00- 16:00	Morten Storm Overgaard (Aarhus University)	Basic concepts and challenges in cognitive neuroscience	Lecture
Thursday, July 27	12:00- 14:00	Guido Marco Cicchini (Neuroscience Institute of CNR, Pisa)	The challenge of measuring behaviour	Lecture
	14:00- 16:00	Stefania Mattioni (UCLouvain)	Introduction to fMRI analyses: uni and multi-variate approaches	Lecture
Friday, July 28	12:00- 14:00	David C. Burr (Università di Firenze)	The influence of expectations and perceptual history on perception	Lecture
	14:00- 16:00	Paola Binda (Università di Pisa)	A "vision" of vision	Lecture

*Time zone in Italy, GMT+2

In-person program:  Centro congressi Le Benedettine

Date	time	Speaker: Name Surname (institution)	Title	Type of activity
Sunday, July 30	18:00-19:00	Organizers	welcome - meet at 18:00 at the Botanical Garden - entrance on via Ghini: https://goo.gl/maps/woKGPgHMRzk2izuA9	activity
Monday, July 31	09:30-12:00	Roberto Arrighi (Università di Firenze)	Evidence for a generalised sensorimotor number system	lecture
	13:00-14:00	Monica Gori (IIT Genova)	meet ABBI (https://www.abbiproject.eu)	activity
	14:00-16:30	Monica Gori (IIT Genova)	Multisensory integration and interaction: from neuroscience to application	lecture
Tuesday, August 1	09:30-15:00	Emiliano Ricciardi (IMT Lucca)	'one, none and one hundred thousand' voxels: from brain activation to information content	@ IMT Lucca
		Giulio Bernardi (IMT Lucca)	Sensory (de)coupling during sleep	
		Pietro Pietrini (IMT Lucca)	Imaging the self	
	16:30-19:00	Olivier Collignon (UCLouvain)	The cognitive neuroscience of multisensory perception and sensory deprivation.	lecture
Wednesday, August 2	09:30-12:00	Irene Sperandio (Università di Trento)	How big is it? How far is it? Behavioural, electrophysiological, and neuroimaging investigations of size-distance scaling	lecture
	14:00-16:30	Martin Rolfs (Humboldt-Universität zu Berlin)	Active vision: Looking for action in visual perception	lecture
	16:30-18:00	Organizers	Growing up in science	activity
Thursday, August 3	08:30-18:30	Paola Binda (Università di Pisa) Stefania Mattioni (UCLouvain)	fMRI bootcamp: data acquisition & analyses (live!)	@ Imago7 MR center
Friday, August 4	09:30-12:00	Morten Storm Overgaard (Aarhus University)	Consciousness research	lecture
	14:00-16:30	Ehud Zohary (Hebrew University of Jerusalem)	Visual cortical development and plasticity	lecture
Saturday, August 5	09:30-12:00	Organizers	exam, general feedback, good-bye	test
