THE PITCH EVENT

Best ideas born from PhD+ 2016

Project Title	Short idea description
Tennis Commander	Tennis Commander is an app for tennis that works on Android Wear smartwatches, giving real-time statistics to the player. Also, it introduces an innovative feature not present in specialised hardware for tennis: localisation on the court of the tennis player, using a pair of bluetooth beacons.
PFQ	PFQ is a functional framework for network monitoring and packet processing, designed for accelerating legacy and distributed network applications.
The Bulb	The Bulb is a web-based platform, providing business guidance and partnering opportunities for originators of innovative ideas from day one !
Cardzbox	CardZbox is a platform available via an app (Android, iOS, Windows) enabling an unprecedented social gaming experience at any time, anywhere with no need for cards or physical objects.
Intraoral usltrasonic probe	Intraoral ultrasonic device for the early diagnosis of oral cavity lesions.
