

## SC6 – Europe in a changing world Inclusive, innovative and reflective societies

Social Challenge 6 - Europe in a changing world: inclusive innovative and reflective societies – aims at fostering a deeper understanding of Europe and providing new solutions for an **increasingly changing society and the growing of global interdependencies**.

All actions under the 2018-2020 Work Programme (WP) of the Societal Challenge 6 are focused on three major themes:

- **migration;**
- socio-economic and cultural **transformations** in the context of the **fourth industrial revolution;** and
- **governance for the future.**

At the core of research is the provision of **scientific elements** for understanding **global changes** and designing integrated **policy options** or **applicable solutions**.

The topics of SC6 are grouped within **the following 3 calls**:

The SC6 work programme contributes to five actions of the **Focus Area<sup>1</sup> on the [Security Union](#)** and eight actions of the **Focus Area on [Digitisation](#)**. These actions are identified by the acronyms SU- and DT- in topic titles.

<sup>1</sup> Focus Areas are implemented as 'virtual calls', which constitute the linking of specific calls/topics from the different parts of Horizon 2020

# MIGRATION

The aim of the call “Migration” is to produce evidence-based recommendations for the **global and European governance of migration** as well as innovative solutions (including ICT-based solutions) for the successful integration of migrants into European host societies.

Furthermore, the call intends to provide evidence-based knowledge on **the effects of migrations** on social systems, the access and impact on labour markets and the cultural integration of third country nationals. Several topics under this call encourage the **direct involvement of migrants** and their individual experiences in the shaping of narratives.

Action	Topic with link to EC Participant Portal	Opening date	Deadline(s)

## SOCIO ECONOMIC AND CULTURAL TRANSFORMATIONS IN THE CONTEXT OF THE FOURTH INDUSTRIAL REVOLUTION

Proposals should address the challenges linked to the effects of the **fourth industrial revolution** in a context of **globalisation** and **digitisation** and to design alternative policies.

Research and innovation activities should provide new evidence and policy options for **mitigating or encouraging this transformations**, in order to reinforce the social, cultural and economic benefits of the fourth industrial revolution and reduce the negative effects.

## GOVERNANCE FOR THE FUTURE

The call aims at enhancing the evidence base and designing sound policies as well as technological solutions in order to **develop tailored governance structures** at different decision levels. The call addresses **the foundations of democracy and governance** by supporting the collection of new evidences and the provision of new policies in key areas such as:

- social rights in Europe;
- trust in governance;
- EU citizenship;
- open innovation; and
- digital democracy.
