PROF. NERI SALVADORI

Professor Emeritus of the University of Pisa
Fellow of the Accademia Nazionale dei Lincei

THEORY AND METATHEORY IN ECONOMIC DEBATES

Academic debates often fail not because of flawed logic, but because of unaddressed metatheoretical assumptions. Examining the reswitching debate, Marshallian theory, and Ricardian models, Prof. Neri Salvadori provides an essential guide to conflict resolution in economics: why we must agree on the 'what' of a theory before we can debate the 'why' of its foundations.
